Tandem Swing (04-0020)

1. Line up the holes of the Seat (1) with the holes of the Handle Assemblies (2 & 3).

2. Make sure that the flat side of the Seat (1) is facing up.

3. Place a washer over each of the bolts (4 & 6). Insert a bolt through the holes in the Handle Assembly and Seat on each side.

4. Add a washer and a nut (5 & 7) on the threaded end of each bolt and tighten.

5. Attach the chain at the end of each rope to an existing swing hanger. Note, some swing hangers are closed and look like a "loop". This type of swing hanger may require an "S" Hook or Spring Clip to attach the chain to the swing hanger. When purchasing "s" hooks or spring clips make sure that they are rated to support at least 200 lbs.

6. Use the chain to adjust height of the swing as needed.

7. Make sure that the nuts are tightened prior to use. Check tightness of nuts during usage season and before each season.

**THE WEIGHT LIMIT FOR THIS PRODUCT IS 140 LBS. TOTAL WEIGHT. UP TO 70 LBS PER CHILD.**
